Enrichment - Volunteering
16/08/2024
Today I joined a group of volunteers to move a display in Manchester art gallery to be archived ready for a new installation. It was a slow process and some elements were fragile so great care was needed. It was fantastic to see the artifacts up close which is something you don't get to do as a visitor.

 **Enrichment - Volunteering** 16/08/2024

It was a slow process and some elements were fragile so great care was needed. It was fantastic to see the artifacts up close which is something you don't get to do as a visitor. The day was long and dirty but being part of such a great group of people who all love the same subject was really great. I learnt so much about not only the pieces or art but also about teamwork!
