2. Changed Button locations in the 'Add a New Activity' pop up

Moved the 'Save' and 'Edit' buttons to the top of the page to make it easier for students to find them

 Add a New Activity

Activity: Time Spent

On what date did this activity take place?

19/08/2025

How much time did you spend on this activity?

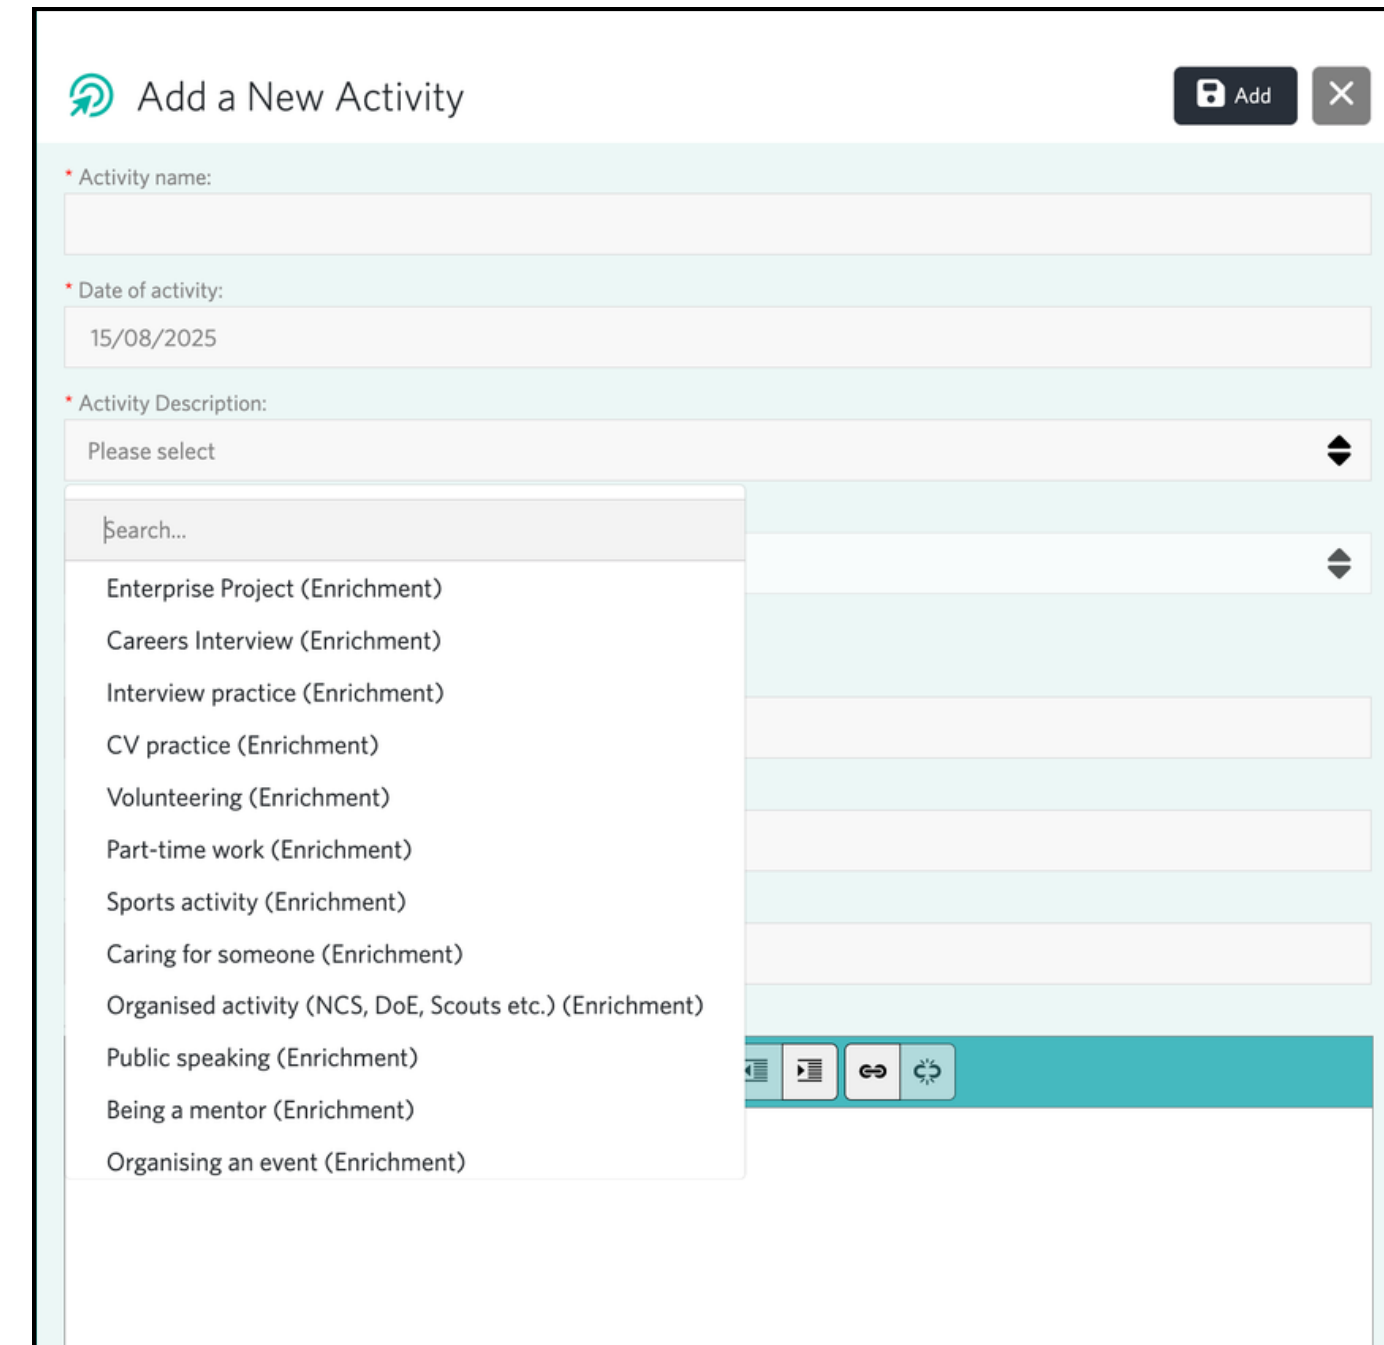

0 Hours  0 Minutes  0h 0m

Save **Close**

3. Extended the Activity Description input to include filtering

The Activity Description drop down now includes a search filter to make finding the correct activity easier.

When adding a new activity, staff and students can search for the correct activity type.

The screenshot displays the 'Add a New Activity' form. At the top, there is a title bar with a green circular icon and the text 'Add a New Activity', followed by an 'Add' button and a close 'X' button. The form contains three main input fields: 'Activity name:', 'Date of activity:', and 'Activity Description:'. The 'Date of activity:' field is pre-filled with '15/08/2025'. The 'Activity Description:' field is a dropdown menu currently showing 'Please select'. A search filter is active, displaying a list of activity types: Enterprise Project (Enrichment), Careers Interview (Enrichment), Interview practice (Enrichment), CV practice (Enrichment), Volunteering (Enrichment), Part-time work (Enrichment), Sports activity (Enrichment), Caring for someone (Enrichment), Organised activity (NCS, DoE, Scouts etc.) (Enrichment), Public speaking (Enrichment), Being a mentor (Enrichment), and Organising an event (Enrichment). The search bar at the top of the dropdown is labeled 'Search...'. At the bottom of the form, there is a teal bar containing three icons: a list icon, a refresh icon, and a circular arrow icon.

4. Allow for Account Managers to edit skills at site level, including hiding default skills

Colleges can now control the skills displayed in the 'Skills Developed' drop down list.

Skills required for Skills Assessment purposes can be requested to be removed from the skills options displayed when adding an activity.

These skills will still show in the assessment they link to.

This is actioned by your Account Manager.

5. Allow for Account Managers to edit which default assessments are available for each site

Colleges now have control over all the Skills Assessments displayed to students on their site.

The default 'Personal & Professional Skills Assessment' can be requested to be hidden on individual college Navigate sites.

This is actioned by your Account Manager.
